BCS AdvancED School Level Standards Committee Structure:

Objective: To provide stakeholders at each school (staff, students, parents, and community) the opportunity to participate in a process for continuous school improvement using a shared committee structure aligned to the following five AdvancED Standards for Schools.

- (1) Purpose and Direction;
- (2) Governance and Leadership;
- (3) Teaching and Assessing for Learning;
- (4) Resources and Support Systems; and
- (5) Using Results for Continuous Improvement

School level AdvancED standards committees are listed in the PL221 School Improvement Plan for each school. Each building has a five committees, one for each standard. All staff within the building serve on at least one committee. Each committee has one chairperson or two co-chairs. Committee chairs and co-chairs) also serve on the building’s PL221 team. This structure assures a connection between Indiana’s school improvement process (PL221) and continuous improvement through AdvancED accreditation.

GOALS AND PLANS FOR CONTINUOUS SCHOOL IMPROVEMENT (AdvancED Standards 3, 5)

A. Benchmarks for Progress (AdvancED Standards 3, 5)

Goals and plans for continuous school improvement should align to the following **five core principles** of professional development cited in the 2013 Center for Public Education Report, "Teaching The Teachers; Effective Professional Development in an Era of High Stakes Accountability".

Principle 1: The duration of professional development must be significant and ongoing to allow time for teachers to learn a new strategy and grapple with issues of implementation.

Principle 2: There must be support for a teacher during the implementation stage that addresses the specific challenges of changing classroom practice.

Principle 3: Teachers' initial exposure to a concept should not be passive, but rather should engage teachers through varied approaches so they can participate actively in making sense of a new practice.

Principle: 4 Modeling has been found to be a highly effective way to introduce a new concept and help teachers understand a new practice.

Principle: 5 The content presented to teachers shouldn't be generic, but instead grounded in the teacher's discipline (for middle school and high school teachers) or grade-level (for elementary school teachers).

B. Academic Honors Diploma and Core 40 (AdvancED Standard 3)
